7 CURRENCY FLUCTUATION

The financial reports are required to be stated in Australian dollars for legal reasons. The records of account are kept in the currencies of the bank accounts into which deposits are made and from which drawings are taken.

Grant allocations are made in US dollars. Most grant payments are paid in US dollars from bank accounts that are held in Australian dollars and UK pounds, respectively. Periodically, drawings equivalent to US dollar amounts are made on our roubles deposits in Russia. The actual drawings from all of these accounts reflect the cost in US dollars on the day.

For the purpose of these reports the US Dollar amounts shown on these accounts are converted back from the Australian Dollar amounts using the Interbank exchange rates for 3 June 2008
